Work History

FRONT END Developer – KitCode

Jan 2025 –Present

- Designed and developed responsive user interfaces for a live international lottery platform, improving usability across desktop and mobile devices.
- Translated UI/UX concepts and visual designs into production-ready frontend components using modern web technologies.
- Collaborated with developers using Git and Bitbucket to support smooth UI integration, version control, and deployment workflows.
- Contributed to reusable UI patterns and component structures to improve consistency, scalability, and development efficiency.
- Supported ongoing platform maintenance by resolving frontend bugs, refining layouts, and improving user experience across key user flows.

Senior Graphic Designer – Zeinous

Jul 2023 – Jan 2025

- Led branding and visual design projects across digital and marketing channels, improving consistency and brand presentation.
- Created web and campaign visuals that supported user engagement, promotions, and product communication.
- Developed design systems and reusable visual assets to streamline creative production and maintain brand cohesion.
- Mentored junior designers and supported design quality through feedback, workflow guidance, and best practices.

Graphic Designer – BGK Printing Services

August 2020 – July 2023

- Produced client-facing visual materials including brochures, banners, signage, and promotional assets with a focus on quality and brand alignment.
- Created digital mockups and presentation-ready concepts that helped clients review and approve designs more efficiently.
- Managed revisions and design refinements to reduce production errors and improve turnaround speed.
- Worked closely with clients and production teams to deliver accurate, print-ready assets under tight timelines.
